

Our Earth Day Promise

At Dr. Albert Einstein Academy, School No. 29, we promise to

reduce our Carbon Footprints as individuals. Students learned

what a “carbon footprint” is and took an Earth Day pledge to

reduce theirs. After reflecting on the activities in their daily lives

that are wasteful, students brainstormed ideas/ways they can

make small changes in their daily lives to “take a step in the right

direction to reduce their carbon footprint.”
