### **Summer Math Practice for Incoming 6<sup>th</sup> Graders**

Dear Students,

This coming September, you will be learning math at a 7<sup>th</sup> grade level in your 6<sup>th</sup> grade math classroom. To brush up on your 6<sup>th</sup> grade math skills and prepare you for the 7<sup>th</sup> grade math curriculum, it is important to practice and work to refine your skills during the summer months. You will use the Khan Academy website to gain an advantage and be better prepared for the coming school year. This will allow you extra practice and the opportunity to work at your own pace. Your work should be completed from June through September 12. Attached are directions on how to connect to Khan Academy and how to begin. Your math teachers will be monitoring your progress and have already set the Get Ready for 7<sup>th</sup> Grade Course Mastery as your goal for the summer. You will receive credit for the percentage of Get Ready for 7<sup>th</sup> Grade Course Mastery completed on your return to school. Try to set up a schedule for yourself. (For example: You may choose to work for half an hour on Monday, Tuesday, Wednesday and Thursday or you may want to work for an hour 3 days a week). Khan Academy is a wonderful tool that can be accessed with any device. However, you have your district issued laptop that you have been using. ***You are required to complete 100% of the Get Ready for 7<sup>th</sup> Grade Course Mastery. Your grade will reflect the percentage completed out of 100%. (For example: In September if you completed 75% of the 6<sup>th</sup> grade Course Mastery you will receive a 75% as your grade. This will count as a test grade for the 1<sup>st</sup> marking period.***

In order to receive credit, you must join our class. Please follow the instructions below.
